The power steering pump is a common reason your Acura TL might whine when accelerating. If it gets too low on fluid, it'll whine a lot. Check the fluid level and fill it back up to the factory fill line. The whining sound should change when you turn your car's steering wheel or rev the engine. To determine if it is the power steering pump ...

Step 1 - Raise and secure the chassis. Just raise the car up and secure to the proper jacking points. Use the front jack point on car's subframe and set two stands on either side of the car, under the reinforced pinch welds ...
