

# Azure solar power

Indian solar power producer Azure Power Global Ltd (NYSE:AZRE) on Monday said it has fully commissioned its largest project, a 600-MW solar park in the northwestern Indian state of Rajasthan. The commissioning means the developer now owns and operates India's largest solar power project at a single location, according to the news release.

Space Solar Cells offer high efficiencies, starting from the 28% class and ending in the high-end cell class of 32%. All solar cells include the latest triple and quadruple junction technology, where III-V layers are grown on a Germanium substrate and the whole product range benefits from many years' experience on the space market.
