In order to protect your computer against power supply interruptions, you need a battery backup. UPS units are like power strips that contain a big battery inside, providing a buffer against power supply interruptions. This buffer can range from a few minutes to an hour or more depending on the size of the unit.

From compact and portable units to high-capacity systems, find the perfect backup power solution to fit your needs and keep your home running smoothly at all times. Some products may be subject to Environmental Handling Fees (EHF) depending on your province.
