

Be prepared solar company

We are constantly at threat of disaster, and unfortunately, they don't all originate here on Earth. No, I'm not talking about alien invasions (although I'm sure those would be important to prepare for, too). I'm talking about our mild-mannered yellow dwarf star, also known as the Sun. Our sun is a wonderful thing. It gives us light, warmth, and helps grow our food. ...

GET READY TO WEATHER ANY DISASTER With these 200W Waterproof Solar Panels, your Grid Doctor 2200 or 3300 system is ready to stand up to anything.. Our 200W Waterproof Solar Panels are prepared to be your personal power ...

Hey, did you know that today is Earth Day? So let's talk about getting prepared by using one of our planet's incredible eco-friendly (and free!) resources: the Sun. Gathering sunlight and turning it into power is one way to be prepared for a variety of electronic needs in an emergency. It seems like the electricity goes out during almost every disaster situation, so it's ...

But what is a solar still? A Solar still is a method of distilling (cleaning) water, using the heat of the sun to evaporate water from soil. Functionally, you're turning the water from the soil into vapor, and then you collect the condensation to drink. Solar stills can range solar ovens to using a simple tarp over a hole in the ground.
