Jackery's wildly popular Power Station Explorer 500 is arguably the "gateway drug" for most power enthusiasts looking for their first solar generator or portable power bank.

Pair it with the Jackery Explorer 2000 power station, and you get CNET's favorite solar generator. With a capacity of 200 watts, it's large enough to handle most of your solar-charging needs. Four of these panels can fill Jackery's 1,000-watt-hour power station in 1.8 hours. Like all the panels featured on this list, this one folds up.

Perfect for camping, road trips, and nomadic lifestyles, EcoFlow Portable Solar Panels are lightweight, foldable, and easy to set up with a kickstand self-supporting case plus a plug-and-play design. All while giving you top-of-the-range solar conversion. By nature, they have the EcoFlow DNA wired--small size offers mighty power.

There are two specs to check for when looking to see if your portable solar panel is compatible with your portable power station: power potential and connector/port compatibility. Portable solar panels aren't all that smart. Whatever blast of sun they are getting will be transmitted directly as power to your power station.
