A mini-tower UPS with line interactive topology, the CyberPower GX1500U provides battery backup (using sine wave output) and surge protection for high end desktop computers, TVs, home theater equipment, gaming systems, and networking devices requiring active PFC power source compatibility. The GX1500U features an advanced multifunction control panel with a color LCD ...

Our world runs on shared data that is integral to global transactions of all kinds, relying on small and large data centers that house and backup all that information. A large data center can use as much electricity as a small town, and when the grid goes down, transactions stop. That's why backup power for data centers is critical.

A mini-tower UPS with line interactive topology, the CyberPower Intelligent LCD CP850AVRLCD provides battery backup (using simulated sine wave output) and surge protection for desktop computers, workstations, networking devices, and home entertainment systems. The CP850AVRLCD uses Automatic Voltage Regulation (AVR) to correct minor power fluctuations ...
