Steffes Electric Thermal Storage systems work smarter, cleaner and greener to make your home more comfortable. Exceptional engineering coupled with efficient, off-peak operation lowers energy usage and costs by storing heat and utilizing energy during the right time of the day.

The best storage heaters UK providers can offer are excellent in the modern day. Although electric rates are cheaper off-peak, they are still more expensive than gas. Therefore, it is most cost-effective to use storage heaters if you do not have mains gas. Night storage heaters with 1.4kW can cost around £50 a month to run.
