Submit your completed application and electricians one-line drawing of planned installation to our project manager at ...

A Homer Electric Association outage Wednesday night that left much of Kenai without power starting around 7:20 p.m. had been resolved by around 9 p.m. HEA said on Facebook at 7:55 p.m. that approximately 2,700 people had their power shut off Wednesday night from what appeared to be an equipment failure at the Marathon substation.

A windstorm caused multiple large power outages across the central peninsula Sunday and Monday, but Homer Electric Association says all service was restored by Monday afternoon. The first outage occurred shortly after 2 p.m. on Sunday, when Homer Electric wrote "we are aware of a large outage in Soldotna."

The area includes the communities of Halibut Cove, Seldovia, Port Graham, and Nanwalek. The primary electrical service for the area is via a submarine cable that crosses Kachemak Bay and comes ashore at McKeon Flats. At McKeon Flats, overhead power lines transfer the power north to Halibut Cove and south and west along the coast line to Nanwalek.
