

How to use meguiar s da power system

Re: Difference between Meguiar's DA Power System Pads The density and foam structure on the three pads are definitely different from one another, they aren't just different colors. In fact, they are the same as our 7" Soft Buff 2.0 foam pads used on the G110v2 and other DA buffers, only smaller in size.

Use Meguiar's® DA Polishing Power Pads as the final step before waxing for maximum deep rich paint. ... With Meguiar's® Ultimate(TM) Compound or Meguiar's® Scratch-X(TM) Cleaner, and these compounding pads attached to the Meguiar's® DAPower System(TM) Tool, you are able to quickly remove oxidation, scratches, water spots, and more, while you ...

The backing plate is not interchangeable, but the pads are. In fact, the DA Power System makes use of our current line of 4" Soft Buff pads. Drill recommendations are for a corded drill with max speed in the 1500 to 2500 rpm range. The gear reduction ratio in the tool prevents it from spinning at equally high speeds for safety reasons.

DA POWER SYSTEM: Intended for use with Meguiar's ...

Re: Review: Meguiar's DA Power System just curious.. I have a DA Power System to use for tight areas. I also have a PC with a regular 6 inch pad. Most of the post says that a regular DA corrects better than the DA Power System. In this instance, should I get a 3 inch back plate for my PC and use it instead of the DA Power system?

Though this can get a bit tiring at times. The Meguiars DA power system tries to bridge this gap. The Meguiars DA power systems is a polishing head with a handle that attaches to any drill with a 3/8 " or larger chuck and gives you the same dual-action polishing capability as a dedicated polisher.

Meguiar's® DAPower System Tool brings that same power to your garage by turning your drill* into a professional grade, dual action polisher. By letting your drill do the work, you can now wax your car in 30 minutes with better results than hand or orbital applications.
