

Power system security assessment is of great importance in power-system operation. To date, security evaluation has consisted of occasionally performing load flows and transient stability studies ...

The Impact IF 2023 of International Journal of Electrical Power and Energy Systems is 6.53, which is computed in 2024 as per its definition. International Journal of Electrical Power and Energy Systems IF is increased by a factor of 0.12 and approximate percentage change is 1.87% when compared to preceding year 2022, which shows a rising trend. The ...

International Journal of Power Electronics and Drive Systems (IJPEDS) is the official publication of the Institute of Advanced Engineering and Science (IAES). The journal is open to submission from scholars and experts in the wide areas of power electronics and electrical drive systems from the global world.

International Journal of Emerging Electric Power Systems IJEPS publishes significant research and scholarship related to latest and upandcoming developments in power systems. The mandate of the journal is to assemble high quality papers from the recent research and development efforts in new technologies and techniques for generation ...

Mission statement: The International Journal of Electrical Power & Energy Systems (JEPE) is an international journal for dissemination of the newest technologies and theoretical research in the area of electrical power and energy systems, aiming at inspiring interdisciplinary research across academia and industry and contributing to the ...

International Journal of Electrical Power and Energy Systems . Country. ... transmission, distribution and utilization, from the viewpoints of individual power system elements and their integration, interaction and technological ...

Bonfring International Journal of Power Systems and Integrated Circuits. Online ISSN: 2277-5072 | Print ISSN: 2250-1088 | Frequency: 4 Issues/Year. Impact Factor: 0.651 | International Scientific Indexing(ISI) calculate based on International Citation Report(ICR) Open Access.

INTERNATIONAL JOURNAL OF ELECTRICAL POWER AND ENERGY SYSTEMS. ISSN 0142-0615; Diffusion; Title: INTERNATIONAL JOURNAL OF ELECTRICAL POWER AND ENERGY SYSTEMS related ISSN: 1879-3517 Country: Netherlands. ... International Journal of Electrical Power & Energy Systems SHERPA/RoMEO URL: https: ...

Scope: The scope of the International Journal of Electrical Power & Energy Systems (JEPE) is focused on electrical power generation, transmission, distribution and utilization, from the viewpoints of individual power system elements and their integration, interaction and technological advancement. ... View full aims & scope

During the most recent 2021 edition, 20.41% of publications had an unrecognized affiliation. Out of the publications with recognized affiliations, 32.05% were posted by at least one author from the top 10 institutions publishing in the journal. Another 20.51% included authors affiliated with research institutions from the top 11-20 affiliations. . Institutions from the 21-50 range included ...

The scope covers modelling of power system elements, their design, analysis of their performance and their implementation in specific aspects typical for modern electrical power and energy systems of various size and complexity.

About the Journal. International Journal of Electrical Power System and Technology : (2455-7293) is a peer-reviewed hybrid open-access journal launched in 2015 that covers many diversified and View Full Focus and Scope... Journal Particulars

International Journal of Power and Energy Systems . Country. Canada Universities and research institutions in Canada ... SJR is a measure of scientific influence of journals that accounts for both the number of citations received by ...

The International Journal of Fluid Power represents the first scientific journal dedicated to fluid power published in English. The journal provides essential reading for engineers and academics interested in advances in modern fluid power technology. Furthermore, the journal keeps the reader informed about research results, new developments ...

Find the latest published papers in International Journal of Electrical Power & Energy Systems + Top authors, related hot topics, the most cited papers, and related journals

International Journal of Emerging Electric Power Systems (IJEEPS) publishes significant research and scholarship related to latest and up-and-coming developments in power systems. The mandate of the journal is to assemble high quality papers from the recent research and development efforts in new technologies and techniques for generation ...

The International Journal of Power Electronics and Drive Systems (IJPEDS), p-ISSN: 2088-8694, e-ISSN 2722-256X, is the official publication of the Institute of Advanced Engineering and ...

Read the latest articles of International Journal of Electrical Power & Energy Systems at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature. ... select article Enhancing static voltage stability of a power system in the presence of large-scale PV plants using a battery energy storage control scheme by the ...

The journal covers theoretical developments in electrical power and energy systems and their applications. The coverage embraces: generation and network planning; reliability; long and short term operation; expert systems; neural networks; object oriented systems; system control centres; database and information systems; stock and parameter estimation; system security and ...

Read the latest articles of International Journal of Electrical Power & Energy Systems at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature.

Read the latest articles of International Journal of Electrical Power & Energy Systems at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature. Skip to main content. ... Special Issue on Control Interactions in Power Electronic Converter Dominated Power Systems(CIPS Control Interaction)

Read the latest articles of International Journal of Electrical Power & Energy Systems at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature. Skip to main content. ... Lockdown impact on Electricity Demand, Power Systems Operation and Pollution Levels; Edited by Prof. Federica Foiadelli and Prof. Alessandra ...

The output voltage of capacitive power transfer (CPT) system will change if the load resistance i... more The output voltage of capacitive power transfer (CPT) system will change if the load resistance is varied. This paper presents a method to regulate the output voltage using a controller that is located on the primary side, known as the primary side control technique.

Contribution to this journal is open to researchers of all nationalities. All manuscripts should be submitted electronically via the Internet to the JOURNAL OF ENERGY SYSTEMS. You will be guided step-wise through the creation and uploading of the various files. Please find JES Manuscript Template There are no page charges.

The Impact IF 2023 of International Journal of Power Electronics and Drive Systems is 1.93, which is computed in 2024 as per its definition. International Journal of Power Electronics and Drive Systems IF is increased by a factor of 0.07 and approximate percentage change is 3.76% when compared to preceding year 2022, which shows a rising trend. The ...

The scope of International Journal of Electric Power & Energy is focused on electrical power generation, transmission, distribution and utilization, from the viewpoints of individual power system elements and their integration, interaction and technological advancement.
