Sofar Solar Inverters: An Independent Review by Solar Choice. Rated 4.00 from 7 customer reviews. Leave a Review. By Jeff Sykes on 20 June, 2024. Note: Solar Choice is not associated with Sofar Solar Inverters and is not a solar installer and has no financial or other incentives to promote any product brand over another.

Can JFY solar power inverters be repaired? JFY inverters have very few repairable parts. Unfortunately in most cases, the inverter will require a full replacement. However, in some cases, the inverter isn't actually the issue! It can be faulty wiring or DC isolators causing the JFY inverter to stop working.

Adelaide Solar Repairs was established in 2011 by Patrick and Jackie, who were already working in the solar industry, and they saw more and more solar companies closing, and inverter manufacturers disappearing and not honouring warranties. After more than 8000 repairs, they can call themselves the leading solar repair company in Adelaide.

I put up a 10 panel system with a jfy2000 inverter up in january all good, put a jfy1500 system in july extra 8 panels but when doing checks it does not add the kw it says it does onto the daily total. eg cloudless day between 1pm and 2pm inverter says producing 1.048kw to 1.078kw but on daily total only .75kw add.

PVOut supports the JFY inverters (so the JFY software is not essential, if you use PVOut). As the laptop is inside the house, I used a CAT-5 cable with 2 RJ45-DB9 adapters (from Jaycar) to extend the short serial cable to about 20m, and it works fine both with the PVout BeanCounter software and the JFY Inverter
