

Articles, games and activities about our planetary neighbors ... Solar System. Universe. Science and Tech. Educators. Solar System. Hello, Pluto! In July of 2015, a spacecraft named New Horizons arrived at Pluto after a long journey. It took amazing pictures of this dwarf planet and will continue to study other objects in the Kuiper Belt from ...

Only the fifth NASA rover to land on Mars, Perseverance is building on the work and scientific discoveries of its predecessors by searching for evidence of ancient microbial life on the Red Planet. In the near future, NASA plans to take its search for life even farther into the solar system to Jupiter's ocean moon Europa. This small moon ...

Eyes on the Solar System Explore planets, their moons, asteroids, comets and the spacecraft exploring them. In this interactive, you can also fast-forward or rewind time, from 1950 to 2050. Start Exploring Eyes on Asteroids

Drive around the Red Planet and gather information in this fun coding game! play; All About the Moon. The biggest planet in our solar system . explore; What Is the Weather Like ...

The Solar System The Sun Mercury Venus Earth The Moon Mars Jupiter Saturn Uranus Neptune Pluto & Dwarf Planets Asteroids, Comets & Meteors The Kuiper Belt The Oort Cloud Skywatching The Universe Exoplanets

Articles, games and activities about our planetary neighbors. Ve a en Espaol. Earth. Sun. Solar System. Universe. Science and Tech. Educators. ... Gallery of NASA Solar System Images. Glorious planets and moons to view or print. explore; What Is Gravity? Gravity is the force by which a planet or other body draws objects toward its center. ...

NASA's Climate Kids website brings climate science to life with fun games, interactive features and exciting articles. This link takes you away from NASA Space Place. Links out; Build a model spacecraft to explore the solar system! Paper models of your favorite solar system explorers. This link takes you away from NASA Space Place. print ...

About the game. In this game you will send information, or data, back to Earth using lasers. You will use mirrors to move the laser and avoid obstacles to get the data back to Earth. Each level has new challenges and your ultimate goal is to build a communication network and synchronize, or match, the time on atomic clocks. About the mission

In this game, you'll lead a mission to explore some of the most interesting environments in our solar system including the Moon, Mars, and Jupiter's moon Europa. Before getting started, read on to learn about some of the current and future NASA missions exploring the same destinations you will soon encounter with your fleet

of spacecraft.

Mars Fun Zone. Start your virtual exploration of the Red Planet with interactive games that put you in the driver's seat. Mars Funzone is the destination for Red Planet-related games, amazing facts, activities and special ...
