1 day ago· Enabling communities to embrace renewable energy not just alleviates the immediate burden but infuses the energy sector with resilience. Communities educated about renewable options are more likely to advocate for changes at local and national levels. Looking toward the horizon, one thing is clear: the push for clean energy is gaining momentum.

In March, Drax bought Pinnacle Renewable Energy in Prince George, the second largest wood-pellet manufacturer in the world -- and it wants to keep expanding its operations. But emissions aren't the only thing concerning people as the industry grows. It could have devastating effects over 11,000 nautical miles away from Yorkshire.
