What is OAE? Ocean Alkalinity Enhancement (OAE) is a process inspired by nature that enables the ocean to safely capture excess atmospheric carbon and store it for 100,000 years. By adding an antacid to seawater, we neutralise carbon dioxide (CO₂) and reduce harmful ocean acidity. This mimics the geologic capture of carbon but acts in months rather than millennia.

The Planetary Society was founded in 1980 by Carl Sagan, Bruce Murray, and Louis Friedman as a champion of public support of space exploration and the search for extraterrestrial life. Until the death of Carl Sagan in 1996, the Society was led by Sagan, who used his celebrity and political clout to influence the political climate of the time, including protecting SETI in 1981 from ...

From the creators of the award-winning short film OVERVIEW -- We are in the midst of a global crisis of perspective. We have forgotten the undeniable truth that every living thing is connected. PLANETARY is a provocative and breathtaking wakeup call - a cross continental, cinematic journey, that explores our cosmic origins and our future as a species.
