The good news for anyone in the market for a portable power station is that the industry as a whole is moving toward LiFePO4 batteries. One of the most important factors in choosing a portable power station is the amount of energy it can store, known as its energy potential.

For reference, a capacity of 512Wh is roughly 7x more than our top pick for best portable battery pack, the Mophie PowerStation XXL. While it's not realistic to know how you'll use the power station in the future, try to guesstimate the number of ports and outlets you'll need. Here's the technical part.
