My APC S15 Power conditioner went out. I have had it for about 5-6 years or so. I live in the Houston area, I don't really need power conditioning, but I definitely need surge protection and a battery back up. I have a ton of equipment. 82 inch screen, 9 Klipsch (RF 7"s 82"s) 4 big subs, about \$15-17k in equipment to protect.

Most power conditioners also include surge protection, and they attempt to maintain the output voltage in the event of a voltage sag or "brownout." In other words, they try to keep the AC voltage constant no matter what, though they can only go so far in this regard. Still, they typically offer greater protection than a simple surge protector.

When power is interrupted, or fluctuates outside safe levels, a UPS will instantly provide clean battery backup power and surge protection for plugged-in, sensitive equipment. APC, a flagship brand of Schneider Electric, offers UPS options for Computers & Peripherals, Networks & Servers, as well as Data Centers & Facilities.
