Editorial Director, Power Systems Design China, Europe & North America Editor-in-Chief, Power Systems Design Europe & North America Cliff Keys cliff.keys@powersystemsdesign Contributing Editors Liu Hong Editor-in-Chief, Power Systems Design China powersdc@126 Ash Sharma, IMS Research

Our overview provides the pros and cons of existing test systems, implying the lack of appropriate benchmarks for future power system studies, including renewable resources and modern technologies. Furthermore, this article presents requirements for updating and modifying the benchmarks for modern power systems analysis.

Murata Power Solutions is known worldwide as the leading manufacturer of DC-DC converters as well as compact, high-efficiency power products designed to address power application requirements of all sizes. The new products added to the range carried by Farnell include the MGN1 series of DC-DC conv. . .

In simple, straightforward language, the book provides a modern introduction to power system operation, control and analysis. With up-to-date chapters on power system security, load forecasting, and voltage stability, Modern Power System Analysis offers a well-priced alternative to older, more expensive texts.

Power Systems Design North America September/October 2009 Leadership, and Vehicle Distribution. In 2007 Small was appointed General Director Global Order Fulfillment. His role was expanded in May of 2009 to include oversight of the Global Supply Chain Center in GM's
