

Router backup power

However, I'm looking for a way to keep my router and modem alive during a power outage, since I work from home and can continue to use my laptop on battery to work if needed. This situation just happened to me and I was able to connect my drill batteries to an inverter to keep my internet up for a bit, though I'm looking for a better way now.

1. Automatic Switching (by using MOSFET) between the power supply and battery pack during the power failure. 2. Two Output Ports: 12V /2A and 5V/2A or 9V/2A. 3. More backup time (8hrs) 4. Battery pack with 3S BMS. 5. Additional Protection. My Book : DIY Off-Grid Solar Power for Everyone. You can order my Book on Off-Grid Solar Power from ...
