This inverter is certified for the Belgian market and available on the Synergrid list. The SolarEdge 3PH Inverter with 33.3 kW is a three-phase inverter suitable for both commercial and industrial applications. This SolarEdge inverter with SetApp configuration and MC4 connectors has a DC overvoltage protection type 2.

When working with SolarEdge inverters, Power Optimizers let you increase your design possibilities by automatically maintaining a fixed string voltage. This enables even greater flexibility and minimizes time onsite with fewer, longer strings (up to 23kW per string) and strings of different lengths.
