if solar panels suit your home. With solar panels, you are able to take advantage of the sun's power all year round.

By making the switch to solar, you can help reduce harmful air pollution and contribute to a cleaner, healthier planet for everyone. We've partnered with one of the most trusted solar industry experts, EnergySage, to offer independent educational resources and the ability to explore your solar options from the comfort of your home.

The potential for solar energy to be harnessed as solar power is enormous, since about 200,000 times the world's total daily electric-generating capacity is received by Earth every day in the form of solar energy. Unfortunately, though solar energy itself is free, the high cost of its collection, conversion, and storage still limits its exploitation in many places.
