

Solara home energy

Mars Energy Group, a holding company for commercial solar companies, is pleased to announce a strategic investment into CalState Solar via its subsidiary, Solara Home Energy. With this investment ...

Under the new NEM 3.0 rate structure, the value of excess solar generated during the day is diminished. But, there is a strategically designed loophole - homeowners and businesses can maintain the value of solar power generated by incorporating a battery into their system. Contact us today to get a home battery quote.

Home energy audits: A home energy audit can help you understand where your home is losing energy and what steps to take to improve the efficiency of your home.; Appliances and electronics: Use your appliances and electronics more efficiently, or consider investing in highly efficient products.; Lighting: Switch to energy efficient lighting, such as LED light bulbs.
