To avoid overheating, Solid Gear 450W is made with a supreme powerful, noiseless, 120mm Nano Bearing fan.

Solid gear power supply

Solid Gear PSU . Build Help So in Microcenter there is a 500 Power Supply selling for 20 dollars. It's called Solid Gear SDGR 500BX and looks like it's also called the Solid Gear Basix. I want to pair up a Ryzen 5 2600X from MC and a RX 570 from Amazon. The reviews seems fairly positive with the a rating of 4.2 stars.

Throughout the laughably under-built secondary, we find a number of LITEC standard capacitors. Lastly, we see the screening on the main PCB showing that supposedly Delta built this power supply (maybe they did, in 1998). Build Quality Summary. Today's Solid Gear Neutron 550W is the first power supply we have seen from Solid Gear and it is a ...

The 750W maximum power delivers safe, reliable, high efficiency output for mainstream gaming systems. Independent dual +12v rails provide more stability and safer power output. Solid Gear Neutron series power supply features a ...

Solid Gear SDGR-850E Deliver true and efficiency power to your system. It can supply extreme power to provide your demanding PC Gaming and multimedia softwares. To avoid overheating, Solid Gear 850W is made with a supreme powerful, ultra silent, 140mm Nano fan. Sleeved finished cables were provided, it also produce better airflow.

The Solid Gear SDGR-650BR power supply features a RGB LED fan and provides efficient 80 PLUS Bronze power with 85% efficiency. It's the perfect choice for demanding PC gaming and multimedia software, as it delivers reliable power. To ensure your system stays cool, the 650W power supply is equipped with a powerful, quiet 120mm RGB LED fan. ...

Introducing the Solid Gear SDGR-650E ATX Power Supply, a reliable and high-performance power source for your computer! With a powerful 650W capacity and 120mm fan, this power supply ensures that your computer runs at optimal performance levels. The connectors available include 4 Pin Peripheral, 6 Pin PCI Express, 4 Pin 12V, 8 Pin 12V, 6+2 Pin ...

The Solid Gear Neutron 550W is the first Solid Gear power supply we have seen here at TheFPSReview. However, Solid Gear has been one of those brands we have all seen lurking on the shelves at Micro Center with a ridiculously low price tag.

I got this to replace the dead Bestec 250W power supply in my Dell Vostro 220s. The failed power supply's failure symptoms were: a bad smell, it would not boot, the power button on the front stayed amber. This Solid Gear power supply fit perfectly including all the screws, and the cables were plenty long enough.
