Identifying the critical role energy storage technology plays in decarbonising the economy, AES leverages its position as one of the space's global leaders to help others have access to more sustainable energy. Through both its solutions and Fluence Energy, its joint venture with Siemens, AES has been pioneering grid-scale energy storage ...

The provider confirmed that it had sold around 18MWh of sonnen retrofit energy storage systems via the initiative, which is part of the wider Wattsmart programme in Utah. The company also estimates that more than 75% of its 2024 sales are via the Go Back initiative, resulting in 200-500 sonnen battery installations in Utah each month.

Advantages of sonnen solar batteries. Excellent warranty. Sonnen offers a best-in-class warranty that guarantees 70% capacity retention after the first of 10 years or 10,000 cycles. 10,000 cycles is a lot, so you're likely to be covered for a full ...

In 2015, sonnen introduced a digital "community" for its customers, who initially bought batteries to store power produced on their roofs during sunshine peaks and to release it later to reduce purchases from the grid. From 2019, sonnen combined households willing to participate into a decentralised scheme, called a virtual power plant (VPP).

OverviewCompany developmentBusiness fieldsShareholdersManagement and human resourcesLocationsAwardsMembershipssonnen GmbH (proprietary name and abbreviated form: sonnen) is a company in the energy industry headquartered in Wildpoldsried in the district of Oberallgäu, Germany.
