Adam's Peak Sunrise; The summit of this 7350 foot tall mountain - Adam's Peak, located in the central highlands of Sri Lanka, provides one of the most magical sunrise views in Sri Lanka. Also known as "Sri Pada", the season for climbing this mountain begins in December and ends on the Full Moon Poya Day in the month of May.

Sunrise and sunset in Sri Lanka do not differ significantly throughout the year. The reason for this is the proximity to the equator. Thus, the sun swings north in the middle of the year and south at the turn of the year, without moving too far away. In countries like Canada or Norway, however, the difference is much more extreme.

Sunrise does sri lanka have energy storage
