

# Warrior 18v lithium battery replacement

I got a couple of the "Warrior" lithium batteries (18v, but charge up to 20) and swapped the batts & boards into the CE battery cases. All charge logic, protection is on the board--the Warrior chargers are just 20v power supplies ( and one came with each battery ?. Soldering required, and adding hole in case to insert charger plug.

center says they are still waiting ...

Now my battery pack with its lithium batteries has a 2 Ah capacity which is greater than with the original 1.5 Ah NiCd's. No more self discharging or memory effect worries. As an added bonus, the battery pack is now less than half the weight! With the NiCD batteries the pack weighed 855g, but now with the lithium batteries it weighs in at 399g.
