

The Red Wolf comes with its own linear power supply. We firmly believe that power has a massive effect on the audio performance of any component, and the incorporation of a 275W power supply housed in an external case proves that conviction. Linear power is a much simpler and quieter (very low noise floor) method of delivering power, and so is ...

CHP modules from WOLF Power Systems are characterised by a proven, compact design that has been successfully used for years. All of the key components for an output range of up to 550 kW are part of the compact module and reduce the space required in your building. At the same time, we guarantee easy accessibility to all components for ...

WOLF Power Systems is our representative in the combined heat and power sector. However, whilst we do move with the times, we also remain true to certain values. The inventions of our founder were based on his observations of hop farmers at work. His goal was to simplify their work and make it more convenient and more efficient.

Von uns k&#246;nnen Sie L&#246;sungen f&#252;r die energetische Verwertung von Erdgas, Biogas sowie Kl&#228;r- und Fl&#252;ssiggas &quot;aus einer Hand&quot; erwarten, die wir f&#252;r und gemeinsam mit unseren Kunden entwickelt haben.

Concrete silencer hoods from wolf power systems. Compared to container solutions, concrete silencer hoods offer a number of advantages: they are particularly quiet, reduce structure-borne noise transmission to the adjacent building and can be architecturally and visually adapted to fit in with neighbouring buildings.
